Julia Yamazaki

São Paulo, SP | (11) 97468-2509 | yamazaki.y@outlook.com | Linkedin | GitHub

Summary

Seeking an internship opportunity to apply my background in development, automation, and databases. I have a strong interest in Cybersecurity and am highly motivated to learn practically and deliver efficient solutions.

Education

FIAP – Faculdade de Informática e Administração Paulista ***2025 - 2029***

Computer Science | Bachelor's degree

Experience

Bilingual Interaction Expert | TP ***Jul 2025 – Jan 2026***

- Responsible for facilitating communication between teams and users, ensuring quality technical and operational support.
- Responsible for recording, tracking, and resolving calls, as well as translating and mediating information between international teams.

Skills and Competencies

Developed personal cybersecurity systems focused on active defense and AI orchestration. I build applications for data processing and automation. I also develop hardware projects combining electrical concepts with low-level programming.

- **System:** Windows, Linux: Kali;
- **Back-End:** Python, Java, C, C++;
- **Front-End:** JavaScript, HTML, CSS;
- **Databases:** MySQL, SQL Server, SQLite;
- **Dev Tools & Environments:** VS Code, Visual Studio, Git, GitHub;
- **AI & Data:** LangGraph, Ollama, Pandas, Scikit-learn;
- **Languages:** Portuguese (Native), English (Advanced), Japanese (Basic).

Courses and Certificates

Alura:

- **Cybersecurity:** Network fundamentals and practices *Jun 2026*
- **Linux for cybersecurity:** administration, shell scripting, and Kali Linux *Jun 2026*
- **Cybersecurity:** Integrated fundamentals and practices *Apr 2026*
- **C:** Knowing the Language of Languages *Apr 2026*
- **Python:** Data analysis with SQL *Jan 2026*
